SAMBA
Your Life.
Your Style.
Your Hearing.
SAMBA – the new audio processor

The SAMBA is the newest generation of audio processor for the VIBRANT SOUNDBRIDGE and the BONEBRIDGE. The SAMBA does what its name suggests: it's colourful, versatile and brings sound and joy to your life. For its innovative design, the SAMBA won the renowned Red Dot Design Award 2014. Along with the stunning design, the SAMBA impresses with sophisticated hearing technology.
Wireless connectivity* – connected to the world
The SAMBA offers wireless connectivity via Bluetooth or telecoil to external devices such as mobile phones, FM systems or MP3 players.

Razor sharp speech – no matter from which direction
Optimal microphone directionality and focus on speech.

Individual design
Colourful or inconspicuous? Choose your favourite cover for every occasion.

Customizing your hearing experience
You can use up to 5 programs to save your individual settings for different listening situations.
All the SAMBA features at a glance

Intelligent Sound Adapter
The SAMBA recognizes your personal listening usage and automatically adapts to different listening environments.

Background noise – a thing of the past
Noise is automatically detected and omitted.

In control at the push of a button
With the remote control provided, you can easily adjust the volume up or down and change between the programs.

Customizing your hearing experience
You can use up to 5 programs to save your individual settings for different listening situations.

* Wireless connectivity feature is available with the Siemens miniTek™. Sivantos is not responsible for the operation with the SAMBA or its compliance with safety and regulatory standards in operation with the SAMBA.
