

## INTRODUCING SONNET SWAP

Don't miss this chance to have the latest MED-EL technology!

For a limited time, new recipients with a SONNET (or SONNET EAS) Audio Processor can swap it for the next generation SONNET once it becomes available!

To be eligible, you must keep one SONNET Audio Processor **UNOPENED** until the new processor is available in the U.S., expected late 2019. Upon availability, MED-EL will contact you with directions on how to initiate the exchange.

*It's the best of both worlds – you don't have to wait to get your SYNCHRONY Cochlear Implant, but you'll still have access to the newest upcoming technology.*

So what do you need to do now?

- Keep one of your SONNET Audio Processors sealed. Open audio processors cannot be exchanged.\*
- Return your new patient forms to MED-EL with your current contact information as soon as possible and notify us if anything changes.
- Contact us at [sonnetswap@medel.com](mailto:sonnetswap@medel.com) or 888-633-3524 if you have any questions!

Additional Details

- RONDO 2 is not eligible for this exchange.
- Only one audio processor may be exchanged per ear/CI system.
- Promotion valid for patients implanted in the U.S. only, with CI System Order Forms and corresponding POs received on or after July 1st, 2019 through product availability.

\* MED-EL will accept OPEN SONNET and SONNET EAS Audio Processors if your patient kit includes only one audio processor. Contact MED-EL with questions.
